

Sept. 8, 2009.

The Editor,

The Chronicle Herald.

Dear Editor:

In your report; {" West Bank homes approved" Sept. 8}, we see continuing Israeli expropriation of Palestinian land and building thousands of homes, in defiance of international law and the Fourth Geneva convention. You quote Dani Dayan, leader of of the West Bank settlers' council stating ".....all the world international community is interested with is whether my daughter builds her house next to mine." Would it occur to Mr. Dayan that the international community would be silent if he and his daughter built their homes on their own land and not on stolen land?

Yours sincerely,

Ismail Zayid, MD.
