Subject: A Walk in the Park

Jane Corbin, in the Pamorama Programme: "A Walk in the Park", gives a brave and fair attempt at displaying the Israeli plan of ethnic cleansing and dispossession of the Palestinian people of East Jerusalem. She deserves congratulation.

The crimes conducted by Israel and the fabrication and re-writing of the history, in Jerusalem and Palestine, defy credibility. These crimes require volumes to relate. A brief look at my website, below, will give you a mere glimpse of the volume of these crimes.

We congratulate the BBC on attempting to give a balanced account of this story.

Yours sincerely,

Ismail Zayid, MD.
