To The Current,

CBC.

We thank you for today's interview with Mr. Joe Sacco, the author of "Footnotes in Gaza". Here is an artist who displayed his skills in demonstrating the crimes and massacres to which the people of Gaza have been subjected for decades. And as Mr. Sacco explained, it is essential to examine the history of this conflict so as to understand the genesis and the reality of the current state of affairs in this tortured land.

Your sincerely,

Ismail Zayid, MD.
